

Embroidery:

Burlington Uniforms offers embroidery for the majority of its stocked range. Company name, logo or motif, as well as individual staff names, can be embroidered in almost any size, in any place.

Helping to reinforce corporate identity and awareness, embroidery is a cost-effective yet proven option.

Screen Printing:

This is a common method used for achieving a striking, sharp edged logo and/or design on casual garments, be it a polo shirt or a cotton t-shirt. All that is needed is high-resolution coloured artwork (to size).

The Burlington Uniforms team is on hand to offer advice or quotation for this service.

Heat Seal:

Unlike embroidery, heat sealing allows for finer detailing to be achieved, be it on workwear, outerwear, shirts or even blouses. In addition, Burlington Uniforms can also provide encapsulated, reflective transfers for use on high visibility clothing.

Tabbing:

This is a highly recommended method of branding. Tabbing is a stylish yet cost-effective way to establish a corporate identity. The company logo or motif is incorporated into a small woven label that can be positioned on the garment as discreetly or as prominently as required. Our team is on hand to advise the best branding solution for the garments required/specified.

Corporate Ties & Scarves:

Burlington Uniforms offers a design service for corporate ties and ladies' scarves subject to a small minimum order. This adds the finishing touch to your corporate wardrobe.

Your Own Logo:

Working with customers every step of the way, Burlington Uniforms will establish and advise the best method and solution for achieving the right corporate uniform and branding. All that is required from the customer is a copy of the logo artwork in the size and colours required.

For a quotation on corporate branding please send a copy of your logo to artwork@burlington-uniforms.co.uk and a member of the production team will be in touch.
