

## Bespoke Design: Simple ideas for the creation of individuality

**We pride ourselves on being able to help you create your own unique British designed and manufactured businesswear.**

Whether it is one style or a whole collection of styles our low minimum order quantities will allow you to explore a whole new concept in corporate clothing.

This manufacturing capability teamed with all our facilities in one place enables us to respond quicker than other companies that rely purely on imported garments. This reliable and efficient service applies to stock, special measure garments and samples.

Working in partnership with you our **free design service** comes into its own. We can create design boards to bring concepts alive, sampling fabric swatches and exploring ideas before moving onto the real thing.

We can simply manufacture one of our designs in a fabric of your choice, add trim or perhaps change a detail. But we are also experts in creating a whole collection - the choice is yours. Yearly we manufacture thousands of special measures through our design and sample room.

We ensure that we work with the fabric suppliers who have Fair Trade status wherever possible and we have formed strong partnerships with UK manufacturers of knitwear and anoraks to support **'Make it in Britain'**.

All we ask is that you commit to 50 garments per style that we will then produce in our own UK factory. You are also welcome to visit us, see the factory, watch garments being made and meet the team who will construct your garments.

You can use stock styles for you to mix and match colours and utilise in order to create your own unique Corporate image.

Please see the pages indicated here: 8-31 & 44-62 for Ladies Corporatewear; 86-88 for

Men's Corporatewear. It is a simple, straightforward and ultimately satisfying experience - so why wait?

**Call us today to set the ball rolling.**
