

SIZE GUIDES

Do not add additional measurements to your body measurement. Garments have been manufactured for comfort & freedom of movement with an allowance added at pattern stage. If you fall inbetween sizes please choose the next size up. Sizes are provided for guide purposes.

Some garments will not be available in all sizes. Please refer to individual garment specifications for details. Ensure fit is correct before customising or embellishing garments as returns/exchanges will not be accepted if items have been modified.

Please Note - Some leg lengths will only cover Regular & Tall. Leg lengths could be style dependant. For Example: A coverall will have a shorter inside leg due to having a longer body length. Please contact customer service if unsure. Shirts to be worn with a tie need to be ordered by collar size NOT chest size.

How To Measure

Neck

Wrap the tape around the base of the neck. This should be a loose measurement. Alternatively, you can use a well fitting shirt. Lay the collar flat and measure from the centre of the button to the far edge of the buttonhole.

Chest/Bust

Wrap tape around the fullest part of the chest or bust and over the shoulder blades. Tape should be kept horizontal with the floor. Keep the tape reasonably taut.

Waist

Wrap tape around smallest part of your waistline. Keep tape horizontal to the floor. Low waisted female styles will have the measurement adjusted at pattern stage. Keep the tape reasonably taut.

Hip

Female hipline- measure over fullest part of hip. Keep tape horizontal to the floor. Keep the tape taut.

Inside Leg

Measure from the top of the crotch to the top of the shoe heel.

If your measurements fall outside the scope of the size charts, you may require a Made To Order (MTO) garment. Please request an MTO order form from customer services.
